London, March 19.
Yesterday arrived the Maile from Holland and Flanders.

Moscow, February 19.

THE Mourning this Court is gone into on Occasion of the Death of the Dutchess Dowager of Orleans, is to continue for a Month. The Ambassadour that is newly come from the Ottoman Porte, had his publick Audience of the Czar the 13th Instant, and was conducted by the Master of the Ceremonies in the following Order. 1. Six Soldiers and a Non-Commission Officer without Arms. 2. A Staff Officer on Horseback. 3. Prince Mensikoff's Coach and Six, empty. 4. A Coach and Six, with the Ambassadour's Secretary and Interpreter, bearing the Credential Letters upon a rich Cushion of Cloth of Gold, six young Tartars marching by the Coach Side. 5. The Ambassadour and Master of the Ceremonies in a Coach and Six, on each side six young Turks walking dress'd in Scarlet Habits. 6. Six other Turks on Horseback closed the March. A Regiment was drawn up in the Castle, and two Companies of Grenadiers in two Ranks, before the Hall of Audience, in which no Person was admitted that was not in Mourning. The Ambassadour being introduced into the Hall with the usual Ceremonies, he delivered his Credential Letters to the Czar, and desired he would appoint Commissaries with whom he might confer upon the Points of his Negotiation. Admiral Apraxin, and the Baron de Tolstoy, a Privy-Councellour, arrived from Persia with 200 Rebels Prisoners, and 20 or 30 Pieces of Cannon. The Baron de Laubras, Chief Engineer, is likewise returned. The Recruiting Service is continued with great Diligence, and other warlike Preparations. Sunday last being the Anniversary of the Birth of the Princess Anne, the Court went out of Mourning for that Day only, which was celebrated with a Ball, Fireworks, and Illuminations.

Petersbourg, Feb. 26. The Court is expected here in a Fortnight or three Weeks, Post-Horses being already placed at every Stage along the Road. Some Accounts from Moscow intimate, there is no Appearance of a Rupture between the Porte and Russia, nor believed that there will be any Expedition this Year into Persia. Count Golofkin, the late Chancellour's Third Son, is to go to relieve his Brother who resides at the Court of Berlin, from whence M. Jagonsinski is expected to return hither.

Paris, March 24. It is reported that the Cardinal du Bois will in a little while have the Chief Direction of the Commerce of this Kingdom. and that the Marquess de Hautefort, Lieutenant-General of the Fleet, is to be included in the next Promotion of Marshalls of France. For some Days past the Marine Affairs have been attended to very diligently, and 'tis said are to be put upon the same Foot as in the late King's Reign, Orders being already given to repair several first Rate Ships and to build others. The Count de Thoulouze delivered up some Days ago his Super-intendency of the Navy, still reserving to himself all his antient Rights as Admiral; and the same was given to M. Morville Secretary of State for Marine Affairs, who for the future is to perform that Office in like manner as M. de Pontchartrain did in the late King's Time. The Duke de Chartres has also delivered up to M. le Blanc Secretary at War, his Direction of the French Infantry of which the Duke had the Care since his being made Colonel General. The Count d'Eureux has done the like concerning the Cavalry, and so has the Marquess de Coigny, of the Dragoons; on Proviso nevertheless, that the Officers

of those different Corps should receive Orders from each of those Colonel-Generals: By these Alterations the Secretary at War's Province becomes as much extended as it was formerly under M. Voffius. The new Regulation for the India Company's Affairs was discussed, for the last Time, the 17th Instant in the King's Council; and 'tis said, is settled after this manner, or pretty near it, viz. a Council is to be appointed, by the Title of Council of the Indies, after the Example of that in Spain, before which every Matter concerning Trade is to be reported; its Members are to be drawn from among the Councellours of State, Masters of Requests, Officers of the Marine, and most of the old Directors are to continue as such now: This Company is to have the Management of the Farm of Tobacco, Coffee, and the exclusive Privilege of Selling Lead, Pewter, &c. 'Tis reported also that 100 Livres a Year Revenue is to be assigned to each Action for the Time past, and 150 Livres henceforwards, independent of other Commercial Advantages: The Names of the Directors are these following, viz. Messieurs de Castagniere, Mouchard, Fromaget, Morin, Duval d'Espremeville, La Franquerie, Godheu, Le Cordier, and Ardancourt. The Dutchess Dowager of Hanover went to Versailles the 17th Instant, to thank the King for the Visit his Majesty did her the Honour of paying in this City last Month on the Death of her Sister the late Dutchess Dowager of Conde. It has been found necessary to give Leave to the Inhabitants of above 200 Villages in the Districts of Liege and Namur to take Arms and give Guard to great Numbers of Dragoons of different Nations, who frequently commit great Mischiefs and Disorders in those Parts. M. de Corfians, a Native of this Kingdom, dying lately at Rome, where he had lived for near 40 Years past, and leaving to the Value of 80000 Livres in Houses, Rents, &c. to the Jesuits of St. Anthony's Street in this City, (as they pretended,) has occasioned a Suit at Law between the Kindred of the Defunct and those Reverend Fathers; but Judgment was given Yesterday in Favour of the Deceased's Relations.

Hague, March 24. The States of Holland and West-Friesland assembled here Yesterday at Ten a-Clock in the Morning, and sent a Deputation of 12 of their Members to receive the 12 Deputies Extraordinary that are newly arrived from Zealand, and to conduct them to the Assembly of their High Mightinesses; accordingly they set out with six Coaches, followed by six others empty, the Guards in the Court being drawn out under Arms, Drums beating, Colours flying, &c. The Zealand Deputies were introduced to the Assembly with the usual Ceremonies, and reconducted afterwards to their several Lodgings with the like Honours, and this Day were magnificently treated at Maurice's Hotel by their High Mightinesses.

Portsmouth, March 16. Yesterday sailed the Essex, Cardigan, and Bridgewater to the Westward. The same Day arrived here four Messengers from London, and went immediately on board His Majesty's Ship Winchester, and took into their Custody the four principal Officers which belonged to the Pretender's Ship Revolution, and are set out this Morning on their Way to London.

Deal, March 17. Arrived the Jordan of Deal from Seville.

Gravesend, March 16. Passed by the Pompey, Mermaid, and Anne from Scanderoon; Malaga-Merchant from Benecarlos; Clifford, Jane, Mary and Elizabeth, and Anne, Susanna, and Libbourn, from Oporto; and Mary from Virginia.
